THANKGIVING is a good time of the year. A time when all the family gathers in deep thanks to God for the good things in life that we all enjoy. In this country,in particular, we are most fortunate to live as free men and at peace. Thanksgiving is an American tradition started here by the Pilgrim fathers that will endure as long as there is a United States.

May we wish you all a happy Thanksgiving Day from our entire family of advertisers.

In answer to some very kind requests we are repeating our Thanksgiving cover of last year of the great sachem of the Wampanogs and

MATTAPOISETT CHRISTMAS LIGHTING AND DECORATION

With the snow on the ground many of us will be thinking more of Christmas decoration. In order to make the town more beautiful for the Christmas season, and to spread the cheer that we enjoy then, the Mattapoisett Improvement Association is offering prizes for the best Christmas displays this year just as they did last Christmas. Winners last year were: business, Pleasant View Gift Shop, first; Silver Gull, second and Frank's Market, third; homes (outside), Ted Walega, North Street, first; William Croft, Linhares Avenue, second and Joseph Farley, Main Street, third; best window display, Mrs. George Eldridge, Church Street, first and Mrs. William Keane, Park Street, second.

Perhaps you recall these very beautiful displays and what they did to brighten the town. Many other displays in all parts of the town were excellent. Ideas are everywhere for your display. Just as we write this we notice that an ad in this paper from the Goodhue Lumber Co. offers some very ingenious plywood cutouts that are simple to make and are very beautiful. They could be saved and added to from year to year. Window design can be a project for everyone and with a few pieces of colored paper you can create a lovely stained glass window. You may have your own idea all planned, but don't wait to long. Christmas will soon be here. Here's hoping for the brightest Mattapoisett ever.

IN MATTAPOISETT

Mr. Preston E. Turner arrived last week from Liverpool, New York for a two months visit with his son and daughter-in-law, Mr. and Mrs. David H. Turner of Church Street, Mattapoisett.

LOG OF THE BARK CHARLESTON BY DANIEL A BALDWIN.

We are privileged to print these excerpts from the log. This is the first time that this log has been published in the United States.

"Friday, July 12th - This day begins with the wind ahead at daylight. There is two whaleships in sight. One of them we suppose is the Chas. Phelps of Stonington. The other ship lowers her boats after black fish. At ten we lower after black fish. The ship that lowered first proves to be the Chariot of Warren, R. I., 25 days out. The other the Chas. Phelps of Stonington, 18 days out.

Saturday, July 13th - This day begins with light airs from the southward and westward. At daylight our two comrades are in sight. At 8 A. M. the cry of "land ho" announced to us the sight of the Island of Floros one of the Western Isles on our weather bow 30 miles off. The wind directly ahead. This 24 hours end with light airs ahead.

Sunday, July 14th - This day begins with a light breeze from the southward. At daylight we saw the Islands of Corvo and Floros on our weather beam - Corvo 4 miles distant and Floros 20 miles. Corvo appears in form to be round 4 or 5 miles in circumference and looks extremely barren except on the southeast side where it slopes to the southward and eastward and appears to be well cultivated. We can see numerous fields of wheat which appears to be fit to gather in. The shores appear bold and rocky. The rocks are dark and of Volcanic origin. This day

Wm. Fielding, an Indian boat steerer, got as drunk and independent as a lord. Two or three others got a little shiny. We had a little flare up. Capt. Chester behaved with great moderation and it all subsided into a calm.

Monday, July 15th - This day begins a moderate breeze to the southward. At daylight we discover the Islands of Fayal and Pico. Fayal appears to be in a high state of cultivation on its sloping table lands. It is uneven and crested with dark Volcanic rocks which look down with a gloomy frown on the smiling valleys below. Pico is a Volcano and rises with great regularity so high that its top is generally above the clouds. At 12 this day we are within 5 miles of Fayal and there is three other Islands in sight - St. George, Graciaris, the other unknown to us. The wind is directly ahead. We have this night to beat up the passage between Fayal and Pico which is from 7 to 10 miles wide. The Island of Pico is covered with vineyards dotted with small white cottages. We could see several churches surrounded with clusters of cottages and the whole surrounding land covered with dark green vineyards. At 7 P. M. the peak roll'd away the veil of clouds that conceal'd its dark frowning sumit and expos'd it to our admiring gaze covered with the golden rays of the setting sun which looked like a smile on the face of Giant Despair.

Tuesday, July 16th - This morning at daylight we find ourselves in Fayal Bay laying off and on in company with the ships Sabina of Sag Harbor and Pochahontas of Holmeses Hole. At 7 o'clock the Bow Boat lowers away

It makes a beautiful appearance from the country around being under a high state of cultivation. The fences are rows of bamboo. The wheat harvest has been gathered in 10 or 12 days."
